

**IT'S NOT OKAY.**

# CHARTER

**WE WILL...**

Ensure that child sexual exploitation is not welcome within our community

Ensure we understand how to identify the signs of child sexual exploitation, and what to do if we encounter it

Listen to the concerns of young people and act upon them where necessary

Ensure we provide a safe space for children and young people

Ensure that young people know how to report child sexual exploitation, and where to go for help

Stand alongside others in Greater Manchester and send out a clear message to abusers that their actions will not be tolerated

Challenge any behaviour that doesn't sit right with us
