HIV POSITIVE LIVING

HIV Awareness

Eligibility: Primary Care Nurses & AHP's

Are you looking to learn more about HIV in primary care?

HIV Awareness training equips you with the knowledge and skills to support people living with, or affected by HIV.

In this session, you will learn:

- A clinical overview of HIV
- How to recognise indicator conditions
- The impact of late diagnosis
- The importance of normalising HIV testing
- Local data and insights
- Real-life experience from someone living with HIV
- Contributions from George House Trust

Date: Thursday 18 September

Time: 12pm to 2pm

Location: MS Teams
