The Breastfeeding Network – Drugs in Breastmilk Service

Are you a Registered Nurse, or Allied Health Professional working in primary care?

The UK has some of the lowest breastfeeding rates, with 8 in 10 women stopping earlier than they'd like.

Join Amanda Da Costa, Clinical Supervisor & Pharmacist Volunteer, as she introduces the Drugs in Breastmilk Service – a vital resource for families and healthcare professionals.

In this session, you will learn:

- Common medication concerns
- Real-life case examples
- Trusted factsheets (75+ available online)
- How to access support and advice

Date: Wednesday 12 November

Time: 12pm to 1pm

Location: MS Teams
