Early Onset Type 2 Diabetes Advice and Care for Pre-conception

Are you a Registered Nurse or Allied Health Professional working across GM?

Gain practical skills to support people in Greater Manchester primary care living with early onset Type 2 Diabetes, a more aggressive form typically diagnosed before age 40.

These sessions will be delivered virtually and will include:

- Ensuring correct classification of diabetes
- Assessment of risk for cardiovascular disease
- Provision for any unmet psychological/emotional needs.
- Weight management options
- Remission pathway for Type 2 Diabetes
- Pre-conception, contraception and pregnancy advice for women of childbearing potential
- Signposting to support services, education and resources for all of the above

Date: Monday, 17 November

Time: 12pm to 1pm

Location: Microsoft Teams
