## 1. Purpose

To ensure that private prescriptions are not issued in error as NHS prescriptions

## 2. Procedure

- When receiving a request for a private prescription you must first check that the item has 'private' noted next to the item. As per the below examples;

**Tadalafil 5mg tablets** (Private) half a tablet daily as advised by specialist, 28 tablet  
 Patient Text - Private  
 Linked Problems - Erectile dysfunction *Private Print*

**Doxycycline 100mg capsules** (Private) One To Be Taken Each Day, 150 capsule  
 Linked Problems - Antimalarial drug prophylaxis *Private Print*

- Once all the medications ordered have been checked, issue the prescription which will then print. All private prescriptions will be printed on the right hand side of the prescription paper.
- They will then need to be forwarded on to the prescriber for signing.
- The prescriber must sign the right hand side of the prescription.
